

## BERRY WATERMELON

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier**  
Trade name BERRY WATERMELON, 20 mg/ml
- 1.2. Relevant identified uses of the substance or mixture and uses advised against**  
Relevant Identified uses For use in electronic cigarettes only.
- 1.3. Details of the supplier of the safety data sheet**  
Xyfil Ltd  
15-19 Sedgwick Street  
Preston  
PR1 1TP  
E-mail: info@xyfil.com  
Telephone: +44(0)1772 888 778
- 1.4. Emergency telephone number**  
Emergency Tel: +44(0)1772 888 778 – Mon to Fri 9:00am to 5:00pm

### SECTION 2: Hazards identification

- 2.1. Classification of the substance or mixture**  
Classification according to Regulation (EC) No 1272/2008 (CLP)

| Hazard Class               | Category | Hazard Class and category | Hazard Code |
|----------------------------|----------|---------------------------|-------------|
| Acute Toxicity, Oral       | Cat. 3   | Acute Tox. 3              | H301        |
| Acute Toxicity, Dermal     | Cat. 2   | Acute Tox. 2              | H310        |
| Acute Toxicity, Inhalation | Cat. 4   | Acute Tox. 4              | H332        |
| Aquatic Toxicity, Chronic  | Cat. 3   | Aquatic Chronic 3         | H412        |

Remarks: For full text of H-Phrases: See SECTION 16.

- 2.2. Label elements**  
Labelling according to Regulation (EC) No 1272/2008 (CLP)

**Signal Word** Danger  
GHS06

**Hazard Pictograms**

**Hazard Statements**

H301 Toxic if swallowed.  
H310 Fatal in contact with skin.  
H332 Harmful if inhaled.  
H412 Harmful to aquatic life with long lasting effects.

**Precautionary Statements**

**Precautionary statements – General**

P102 Keep out of reach of children.

**Precautionary Statements – Prevention**

P264 Wash hands thoroughly after handling.  
P270 Do not eat, drink or smoke when using this product.  
P271 Use only outdoors or in a well-ventilated area.  
P273 Avoid release to the environment.  
P280 Wear protective gloves.

**Precautionary Statements – Response**

P301 + P310 IF SWALLOWED: Immediately call a doctor.  
P302 + P352 IF ON SKIN: wash with plenty of water.

**Precautionary Statements – Storage**

P405 Store locked up.

**Precautionary Statements – Disposal**

P501 Dispose of contents, container in accordance with local regulation.

**Contains:** Nicotine Salicylate

**EUH-Statement:**

EUH208 Contains Methyl cinnamate & Furanol. May produce an allergic reaction.

## BERRY WATERMELON

### 2.3. Other hazards

The mixture does not meet the criteria for classification as a PBT or vPvB.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

This product is a mixture.

#### 3.2. Mixtures

Composition / information on ingredients

| Name of substance   | CAS No     | EC No     | Wt %   | Classification acc. to 1272/2008/EC                                                       | Pictograms     |
|---------------------|------------|-----------|--------|-------------------------------------------------------------------------------------------|----------------|
| Glycerol            | 56-81-5    | 200-289-5 | 50-<75 | No Classification                                                                         | None           |
| Propylene Glycol    | 57-55-6    | 200-338-0 | 25-<50 | No Classification                                                                         | None           |

Note: For full text of abbreviations: See SECTION 16.

Substances that are on the so-called "Candidate List of Substances of Very High Concern (SVHC) for authorization" of the European Chemicals Agency (ECHA) are not deliberate components of this product. It is therefore not to be expected that those substances will be present in the product in quantities of > 0.1%.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

##### General notes

Remove contaminated clothing immediately. Get medical attention if health problems occur.

##### Following inhalation

Supply fresh air. If the product irritates the respiratory tract: Consult a doctor.

##### Following skin contact

Wash off with plenty of water and soap, rinse.

##### Following eye contact

Remove contact lenses. Rinse immediately with plenty of water with the eyelid held wide open for at least 15 minutes. Possibly. Consult an ophthalmologist.

##### Following ingestion

Immediately rinse the mouth vigorously. Drink a lot of water (200 - 300 mL) in small sips (dilution effect). Avoid vomiting. No attempts at neutralization.

#### 4.2. Most important symptoms and effects, both acute and delayed

Acute effects can occur after short-term exposure (especially if large amounts are ingested or inhaled).

#### 4.3. Indication of any immediate medical attention and special treatment needed

In the event of loss of consciousness: call a doctor.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

##### Suitable Extinguishing Media

Carbon dioxide, polymer foam; Dry powder. Water spray can be used to cool surfaces exposed to fire or can be applied directly to the fire, provided the risk of fire spreading is extremely low.

##### Unsuitable Extinguishing Media

Do not use a full jet of water to disperse and spread the fire.

#### 5.2. Special hazards arising from the substance or mixture

In the event of fire, dangerous vapours / gases can arise: carbon monoxide, carbon dioxide.

#### 5.3. Advice for firefighters

## BERRY WATERMELON

Staying in the area of danger only with respiratory protection device independent of circulating air. Cool endangered containers with water spray from a safe distance. Knock out escaping vapours with water. Pay attention to flashback. Prevent fire-fighting water from entering surface and ground water and soil. Avoid skin contact by wearing suitable protective clothing and by keeping a safe distance.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

**Information for personnel not trained for emergencies:** Avoid product contact and inhalation of the solvent vapours. Avoid skin contact by maintaining a safe distance or wearing suitable protective clothing.

**Instructions for emergency services:** Use protective equipment according to section 8.

#### 6.2. Environmental precautions

Prevent product and large quantities of contaminated washing water from entering water and soil. Cover the sewage system to prevent the product from entering the sewage system.

#### 6.3. Methods and material for containment and cleaning up

**For larger quantities:** Pump off the product.

**In the case of remnants:** Limit leaked material with neutralizing and non-flammable absorbent and collect for disposal according to local regulations in the containers provided.

Take up small quantities (up to approx. 1 L) with plenty of water, dispose of water in the sewage system.

#### 6.4. Reference to other sections

Observe protective measures under section 7, 8 and 13.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice for safe handling:

Do not leave the containers open.

General hygiene measures:

Do not eat, drink or smoke in areas where work is done. Wash hands after use. Remove contaminated clothing and protective equipment before entering areas where people eat.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in cool, dry and well-ventilated area. Keep containers tightly closed. Protect from low temperatures, frost, direct sunlight or high temperatures. Ideal storage temperature range: between 20 to 25 degrees Celsius.

#### 7.3. Specific end use(s)

As far as possible, keep only in the original packaging. Other suitable containers: steel drums; Aluminium containers, glass containers and high-density polyethylene (HDPE). Some types of rubber and plastics (low density polyethylene) are attacked by the product.

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

National Limit values

Workplace Exposure Limits (Occupational Exposure Limit)

| Country | Substance        | CAS No.  | Limit value-8 hours (TWA) |                   | Limit value-15 min (STEL) |                   |
|---------|------------------|----------|---------------------------|-------------------|---------------------------|-------------------|
|         |                  |          | ppm                       | mg/m <sup>3</sup> | ppm                       | mg/m <sup>3</sup> |
| GB      | Glycerol         | 56-81-5  |                           | 10                |                           |                   |
| GB      | Propylene Glycol | 57-55-6  | 150                       | 474               | -                         | -                 |
| GB      | Ethanol          | 64-17-5  | 1000                      | 1920              | -                         | -                 |
| GB      | Ethyl ethanoate  | 141-78-6 | 200                       | 734               | 400                       | 1468              |

**TWA:** Time-Weighted Average (Long-term exposure limit): measured or calculated in relation to a reference period of 8 hours-time weighted average.

**STEL:** Short-Term Exposure Limit: a limit value above which exposure should not occur and which is related to a 15-min period unless otherwise specified.

#### 8.2. Exposure controls

##### Engineering Measures

##### Suitable technical control devices

Technical measures and the use of suitable working methods have priority over the use of personal protective equipment. Ensure good ventilation. This can be achieved by local extraction or general exhaust air.

## BERRY WATERMELON

**Personal protective equipment:**

Personal protective equipment should be selected specifically for the workplace, depending on the concentration and quantity of hazardous substances.

**Eye/face protection**

Use safety glasses with side shields in accordance with EN 166: 2001. Make sure that the eye wash is easily accessible.

**Skin protection****Hand Protection**

Wear solvent and alkali resistant protective gloves according to EN 374.

Suitable material: Nitrile or butyl rubber

Thickness: 0.4 mm

Breakthrough time: ~ 150 min

**Other**

Suitable protective clothing: Lab apron or other working clothes.

**Respiratory Protection**

Not normally required under normal conditions of use and with adequate ventilation. Formation of mist or fumes must be avoided. Respiratory protection must be used if there is a risk of fumes or misting. Particle filter class P1 (EN143). Gas/vapour filter Type A: organic vapours (EN141).

**Environmental Exposure Controls**

See sections 6 and 7.

### SECTION 9: Physical and chemical properties

**9.1. Information on basic physical and chemical properties**

|                                                          |                                |
|----------------------------------------------------------|--------------------------------|
| Appearance                                               | : Liquid form                  |
| Odour                                                    | : Characteristic odour         |
| Odour threshold                                          | : No data available currently. |
| pH                                                       | : No data available currently. |
| Melting point/freezing point                             | : No data available currently. |
| Boiling point                                            | : No data available currently. |
| Flash Point(°C)                                          | : > 65 °C                      |
| Evaporation Rate                                         | : Negligible                   |
| Flammability limits % lower                              | : No data available currently. |
| Flammability limits % Upper                              | : No data available currently. |
| Vapour Pressure                                          | : No data available currently. |
| Vapour density                                           | : No data available currently. |
| Relative density                                         | : No data available currently. |
| Solubility (Water)                                       | : Soluble                      |
| Solubility (Benzene)                                     | : Soluble                      |
| Solubility (Acetone)                                     | : Soluble                      |
| Solubility (Ethanol)                                     | : Soluble                      |
| Partition Coefficient n-Octanol/Water (Glycerol)         | : -1.75 at 25 °C               |
| Partition Coefficient n-Octanol/Water (Propylene Glycol) | : -1.07 at 20 °C               |
| Partition Coefficient n-Octanol/Water (Nicotine)         | : 1.17 at 18 °C                |
| Auto Flammability(°C)                                    | : No data available currently. |
| Decomposition temperature                                | : No data available currently. |
| Viscosity                                                | : Viscous                      |
| Explosive properties                                     | : No data available currently. |

**9.2. Other information**

No data available.

### SECTION 10: Stability and reactivity

**10.1. Reactivity**

Stable under recommended transport or storage conditions.

**10.2. Chemical stability**

The product is chemically stable under normal ambient conditions (room temperature).

**10.3. Possibility of hazardous reactions**

When used as intended, no dangerous reactions are expected.

**10.4. Conditions to avoid**

Heat; hot surfaces; sources of ignition; flames; static discharge; moist air; humidity; moisture.

## BERRY WATERMELON

### 10.5. Incompatible materials

Strong acids; Strong alkalis; Strong oxidising agents.

### 10.6. Hazardous decomposition products

In combustion emits toxic fumes of carbon dioxide/carbon monoxide or acrolein. In a fire may liberate acrid and irritant fumes.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

#### Acute Toxicity: Mixture

Toxic if swallowed. Fatal in contact with skin. Harmful if inhaled.

#### Acute Toxicity: Components of Mixture

| Name of substance | CAS No    | Acute Toxicity Data  |                           |                   |
|-------------------|-----------|----------------------|---------------------------|-------------------|
|                   |           | Oral (LD50)          | Dermal (LD50)             | Inhalation (LC50) |
| Glycerol          | 56-81-5   | Rat: 27,200 mg/kg    | Guinea pig: 56,750 mg/kg  | -                 |
| Propylene Glycol  | 57-55-6   | Rat: 22 000 mg/kg bw | Rabbit: 20,800 mg/kg bw   | -                 |
| Ethanol           | 64-17-5   | Rat: 10470 mg/kg     | -                         | Rat: 125mg/l 4h   |
| Methyl cinnamate  | 103-26-4  | Rat: 2610 mg/kg bw   | Rabbit: > 5 000 mg/kg bw  | -                 |
| Ethyl ethanoate   | 141-78-6  | Rat: 5 620 mg/kg bw  | Rabbit: > 20 000 mg/kg bw | Rat: > 6 000 ppm  |
| Furaneol          | 3658-77-3 | Rat: 2320 mg/kg bw   | -                         | -                 |

#### Skin Corrosion/Irritation

Based on the available data, the classification criteria are not met.

#### Serious Eye Damage/Eye Irritation

Based on the available data, the classification criteria are not met.

#### Respiratory or Skin Sensitisation

Based on the available data, the classification criteria are not met.

#### Germ Cell Mutagenicity

The mixture is not classified. The mixture does not contain any substances that are classified as mutagenic.

#### Carcinogenicity

The mixture is not classified. The mixture does not contain any substances that are classified as carcinogenic.

#### Reproductive Toxicity

The mixture is not classified. The mixture does not contain any substances that are classified as toxic to reproduction.

#### Specific Target Organ Toxicity -Single Exposure (STOT-SE)

Based on the available data, the classification criteria are not met.

#### Specific Target Organ Toxicity-Repeated Exposure (STOT-RE)

Based on the available data, the classification criteria are not met.

#### Aspiration Hazard

Based on the available data, the classification criteria are not met.

## SECTION 12: Ecological information

### 12.1. Toxicity

Harmful to aquatic life with long lasting effects.

#### Toxicity: Components of Mixture

| Name of substance | CAS No    | Short-Term Toxicity |                                   | Long-Term Toxicity                         | Toxicity to                  |
|-------------------|-----------|---------------------|-----------------------------------|--------------------------------------------|------------------------------|
|                   |           | Fish (LC50)         | Aquatic Invertebrates (EC50/LC50) | Aquatic Invertebrates (EC10, LC10 or NOEC) | Algae & Cyanobacteria (EC50) |
| Glycerol          | 56-81-5   | 54000 mg/l-96 h     | 1 955 mg/L-48h                    | -                                          | 2 900 mg/L-28 d              |
| Propylene Glycol  | 57-55-6   | 40613 mg/l-96 h     | 18 340 mg/L-96h                   | 13 020 mg/L-7d                             | 19 000 mg/L-96h              |

| Methyl cinnamate  | 103-26-4  | 2.76 mg/L-96h       | -                                 | -                                          | 7.6 mg/L-72h                 |
| Ethyl ethanoate   | 141-78-6  | 230 mg/L-96 h       | 165 mg/L                          | 2.4 mg/L-21d                               | 5 600 mg/L-72h               |
| Furaneol          | 3658-77-3 | -                   | 6.8 mg/L-48h                      | -                                          | 194.03 mg/L-72h              |

## BERRY WATERMELON

### 12.2. Persistence and degradability

Degradability of components of the mixture

| Name of Substance | CAS No    | Process                   | Degradation Rate | Time |
|-------------------|-----------|---------------------------|------------------|------|
| Propylene Glycol  | 57-55-6   | Oxygen consumption        | 106.80%          | 28 d |
| Propylene Glycol  | 57-55-6   | CO <sub>2</sub> Evolution | 81.70%           | 28 d |
| Methyl cinnamate  | 103-26-4  | DOC removal               | 100.0%           | 28 d |
| Ethyl ethanoate   | 141-78-6  | CO <sub>2</sub> Evolution | 93.3%            | 28 d |
| Furaneol          | 3658-77-3 | oxygen consumption        | 97.0%            | 28 d |

### 12.3. Bio accumulative potential

Data is not available.

Bioaccumulation Potential of components of the mixture:

| Name of Substance | CAS No    | BFC | Log KOW                   | BOD5/COD |
|-------------------|-----------|-----|---------------------------|----------|
| Glycerol          | 56-81-5   |     | -1.75 at 25 °C and pH 7.4 |          |
| Propylene Glycol  | 57-55-6   |     | -1.07 at 20 °C            |          |
| Ethanol           | 64-17-5   |     | -0.35 at 20 °C            |          |
| Methyl cinnamate  | 103-26-4  |     | 2.68 at 25 °C             |          |
| Ethyl ethanoate   | 141-78-6  |     | 0.68 at 25                |          |
| Furaneol          | 3658-77-3 |     | 0.95 at 25 °C             |          |

### 12.4. Mobility in soil

No data available.

### 12.5. Results of PBT and vPvB assessment

The substances of this mixture do not meet the PBT / vPvB criteria of REACH Annex XIII

### 12.6. Other adverse effects

No data available.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Very small quantities (say <20 ml) may be discharged into the drains provided it is diluted before discharge. Large quantities should be given to licensed disposal company.

#### Recovery Operations

No information available currently.

#### Disposal of Packaging

Contaminated containers can be treated as household waste provided, they are washed and cleaned with water. Where practical, containers and packaging should be recycled by a licensed contractor (note regional or national regulations).

## SECTION 14: Transport information

### 14.1. UN number

ADR/RID: - 3144      IMDG: - 3144      IATA: - 3144

### 14.2. UN proper shipping name

ADR/RID: NICOTINE PREPARATION, LIQUID, N.O.S.  
IMDG: NICOTINE PREPARATION, LIQUID, N.O.S.  
IATA: NICOTINE PREPARATION, LIQUID, N.O.S.

### 14.3. Transport hazard class(es)

ADR/RID: - 6.1      IMDG: - 6.1      IATA: - 6.1

### 14.4. Packing group

ADR/RID: - III      IMDG: - III      IATA: - III

### 14.5. Environmental hazards

ADR/RID: - No      IMDG Marine pollutant      No      IATA: - No

### 14.6. Special precautions for user

There is not additional information.

### 14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable.

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

## BERRY WATERMELON

Regulation (EU) 2015/830

CLP Regulation 1272/2008 / EK

REACH Regulation 1907/2006 / EC

Council Directive 98/24 / EC of 7 April 1998 on the Protection of Health and Safety

Tobacco Products Directive 2014/14/EU (TPD)

### 15.2. Chemical safety assessment

A chemical safety assessment has not been carried out for this substance or the mixture by the supplier.

### SECTION 16: Other information

#### Abbreviations and Acronyms

#### List of Hazard Codes and Hazard Statements

|      |                                                                  |
|------|------------------------------------------------------------------|
| H300 | : Fatal if swallowed                                             |
| H301 | : Toxic if swallowed                                             |
| H302 | : Harmful if swallowed                                           |
| H304 | : May be fatal if swallowed and enters airways                   |
| H310 | : Fatal in contact with skin                                     |
| H311 | : Toxic in contact with skin                                     |
| H312 | : Harmful in contact with skin                                   |
| H314 | : Causes severe skin burns and eye damage                        |
| H315 | : Causes skin irritation                                         |
| H317 | : May cause an allergic skin reaction                            |
| H318 | : Causes serious eye damage                                      |
| H319 | : Causes serious eye irritation                                  |
| H330 | : Fatal if inhaled                                               |
| H331 | : Toxic if inhaled                                               |
| H332 | : Harmful if inhaled                                             |
| H335 | : May cause respiratory irritation                               |
| H336 | : May cause drowsiness or dizziness                              |
| H371 | : May cause damage to organs                                     |
| H373 | : Causes damage to organs through prolonged or repeated exposure |
| H225 | : Highly Flammable liquid and vapor                              |
| H226 | : Flammable liquid and vapor                                     |
| H410 | : Very toxic to aquatic life with long lasting effects           |
| H411 | : Toxic to aquatic life with long lasting effects                |
| H412 | : Harmful to aquatic life with long lasting effects              |
